

AIRCRAFT CABIN Innovation Summit **USA**

13-14 SEPTEMBER 2022 | The Carter Center, Atlanta, Georgia, USA
15 SEPTEMBER 2022 | Delta Day

© Delta Air Lines

Hosted by Delta Air Lines:  **DELTA**

SOME OF OUR PAST SPEAKERS AND GUESTS:

AIRCRAFT CABIN INNOVATION SUMMIT USA

13–15 September 2022 | Atlanta, Georgia, USA

On behalf of Delta Flight Products and the entire Delta family, I am honored to welcome you to the **Red Cabin Aircraft Cabin Innovation Summit 2022**. We are excited to host you in our hometown of Atlanta and look forward to a few days of **purposeful conversation and connection**.

The years to come will be full of opportunities to **reconnect and get back to what we all love most – connecting others through flight**. The in-flight experience is vital to our industry and will be even more imperative as travelers return to the skies. This innovation summit will be a great

opportunity to further revolutionize the cabin experience as we embark on the next generation of in-cabin features. We look forward to seeing you soon.

AIRCRAFT CABIN INNOVATION SUMMIT USA

13–15 September 2022 | Atlanta, Georgia, USA

WHAT YOU WILL EXPERIENCE ON SITE

WHO IS WHO

Get in touch with other experts before the conference starts. Take a look at the business cards and photos while enjoying your first conversational and networking experience.

AUDIENCE Q&A

Interact with conference speakers and moderators to ensure all of your questions are answered during these sessions.

MEET AND GREET

Break the ice and get to know your industry peers in these fast-paced one-to-one meetings. Greet each participant in this series of brief exchanges and share your professional background.

PANEL DISCUSSION

Benefit from deeper insights by attending panel discussions. Share your ideas and thoughts with peers and receive feedback from dedicated industry experts in this interactive session.

INTERACTIVE WORKING GROUPS

Get an in-depth approach to these hands-on themes. Discuss, brainstorm, elaborate and work together in this interactive session. Tutorials and workshops are also an excellent chance to interact at this perceived as the, go-to' place for knowledge, best practice and credible solutions.

NETWORKING RECEPTION

Enjoy an informal evening get-together with speakers and peers to discuss the outcome of the first summit day and expand your network in a relaxed environment.

AIRCRAFT CABIN INNOVATION SUMMIT USA

13–15 September 2022 | Atlanta, Georgia, USA

PARTNER

SEKISUI | KYDEX SEKISUI KYDEX innovates and creates sustainable thermoplastic material solutions for the next generation of product design to help enhance the passenger experience.

The KYDEX® Thermoplastics Quick Response Manufacturing (QRM) business model of manufacturing bespoke materials with short lead times in small quantities expands beyond thermoplastic sheet. The fully compliant KYDEX® portfolio also includes injection molding resins, proprietary Infused Imaging™ technology, integral special effects, unique textures, antibacterial protection and custom products and design. The SEKISUI KYDEX appLab™ and designLab® Innovation Centers are collaborative spaces for clients and customers to bring the supply chain together for rapid prototyping and design development. These spaces are the bridge between engineering and art.

SPONSOR

Mohawk Group We believe in providing the best solutions in carpet and hard surface flooring products to create memorable, holistic design applications in all areas of aviation and transport spaces. As the world's leading producer and distributor of quality commercial flooring, Mohawk Group believes that better floor coverings emerge from better design, innovation, sustainability, project solutions and operational excellence. We address the unique challenges and opportunities in contract interiors with a comprehensive carpet and hard surface portfolio designed to offer worry-free performance. From ground to air, we produce a wide variety of flooring solutions to elevate the design of aviation spaces while enhancing passenger experiences.

SPONSOR

ZOTEFOAMS Zotefoams plc is the world's leading manufacturer of crosslinked block foams. ZOTEK® F is a range of lightweight, closed cell, foams based on polyvinylidene fluoride (PVDF) and available in flexible, semi-rigid, rigid and the newly launched extra-rigid grade. Zotefoams' ZOTEK® F OSU range continues to grow in popularity as a material for aircraft interiors, combining a luxury feel that appeals to the most discerning tastes with outstanding fire, smoke and toxicity ratings while delivering weight savings that make air travel more sustainable.

ZOTEK® F has become an increasingly compelling choice for aircraft interiors, in applications including window seals, environmental control systems, insulation, carpet underlay and soft-touch trim. It offers significant weight reductions of up to 70% compared to alternatives such as silicone and solid thermoplastics, contributing to considerable fuel savings. It is a remarkable material that offers a unique balance of properties including temperature, UV and chemical resistance, and the uncompromising flammability performance that is essential in aviation.

SkyPaxxx is a FAA and EASA repair station specializing in seating and interiors and the manufacturer of Sky-Tiles® carpet. As a Customer First, Customer Focused company, SkyPaxxx has built a reputation as the premier destination for all of your aircraft interior needs.

With a complete range of services and capabilities on every interior component, including customized on wing support, SkyPaxxx is ready to handle any requirement for any fleet. A Crystal Cabin Award winner, Sky-Tiles need no serging, guarantee no fraying or shrinking, and are 100% recyclable with a 3 year appearance guarantee.

AIRCRAFT CABIN INNOVATION SUMMIT USA

13–15 September 2022 | Atlanta, Georgia, USA

SPONSOR

Pexco Aerospace provides structural aircraft interior systems, components and solutions for the aviation industry.

We deploy a variety of state-of-the art manufacturing techniques and materials to manufacture aircraft cabin and structural components, products and assembled solutions, utilizing advanced equipment with years of technical expertise.

Trim and finish components for aircraft interiors are critical for providing trim applications that double as protection and are aesthetically pleasing. These components have critical functions, eliminate or hide unpleasant seams, and act as a seal, bringing two components or moments together. We are the OEM producer of all BAC1522 products.

Check out pexcoaerospace.com for more information.

Driving innovation for almost 225 years:

From a local ribbon manufacturer to a global technology leader in high-tech fastener systems: as a family-run, globally successful company, Binder Group offers technical fastening solutions for a wide range of industries like for example aviation, automotive or personal care.

To build on our innovative edge, we place considerable emphasis on research and development as well as on collaborations with leading research institutes and universities. The result of this is numerous patents and new products of uncompromising quality and maximum reliability – properties that all our products have in common.

SPONSOR

ELeather is the pioneer of engineered leather. Its revolutionary process transforms unused leather into advanced materials while achieving a significantly lower environmental footprint.

ELeather reduces waste, increases performance, and enables brands to create extraordinary products and memorable customer experiences, while improving sustainability. Born in the UK, ELeather has grown to supply industries ranging from transport to footwear, across the world. It's leather, evolved."

Check out eleathergroup.com for more information.

Air-Clenz Systems (www.air-clenz.com), based in Atlanta, Ga., was launched by success-proven inventors, scientists, and collaboration partners attempting to solve major global challenges caused by the coronavirus pandemic, with an eye to benefiting the global population at large. The management team at Air-Clenz has a substantial track record of identifying global needs, inventing solutions to satisfy such needs, protecting intellectual property, developing technology, and selling or licensing the inventions to Fortune 500 companies.

Air-Clenz Systems' proprietary technology and approach is directed at the collection, isolation, and removal of pathogens from exhaled air before they have a chance to disperse and be transmitted to others. The technology can be adapted to fit most any environment where individuals are seated, including schools, offices, houses of worship, learning institutions, theaters, and vehicles (including aircraft).

AIRCRAFT CABIN INNOVATION SUMMIT USA

13–15 September 2022 | Atlanta, Georgia, USA

SPONSOR

 **Beadlight®** Beadlight is a British manufacturing company, focusing on design, quality and safety.

We manufacture LED products using our patented “Beadlight diffusion” which creates the finest LED illumination to read by. We supply products to the Aerospace, Maritime and Contract Interior Sectors. In 1997 Beadlight designed the first ever LED reading light for a commercial airliner (Virgin Atlantic).

Over the last 25 years we have become a significant participator in the Aerospace reading light market. We are a fast expanding company with in-house designers and engineers who strive to tailor our products to the client requirement. www.beadlight.com

Alpine Advanced Materials is a leading expert in the design, manufacture and supply of purpose-built parts for a variety of industries including aviation, defense, recreation, space and emerging transportation such as UAVs and eVTOL.

Offering services from initial concept to mass production, Alpine is a one-stop shop that produces high-performance components using innovative materials such as its flagship HX5® nanocomposite, a material that is 50% lighter and 93% the strength of 6061-T6 aluminum. By retrofitting existing fleets with lighter components made with HX5, the industry can decrease fuel burn and dramatically reduce CO2 emissions. www.alpineadvancedmaterials.com

Founded in 1969 on family values and with multiple, strategically-located operations and customer support facilities around the world, Tulsa-based NORDAM is a leading independently owned aerospace company.

SPONSOR

The firm designs, certifies and manufactures integrated propulsion systems, nacelles and thrust reversers for business jets; builds composite aircraft structures, interior shells, custom cabinetry and radomes; and manufactures aircraft transparencies, such as cabin windows, wing-tip lens assemblies and flight deck windows.

NORDAM also is a major third-party provider of maintenance, repair and overhaul services to the military, commercial airline and air freight markets. www.nordam.com

For more than 75 years, SCHROTH Safety Products has been a leading manufacturer of innovative occupant protection and restraint systems for customized applications in aerospace, defense, and motorsport. The company develops advanced technical solutions for leading commercial aircraft manufacturers and operators in the field of seatbelts and restraint systems, airbag technology, and crash safety. SCHROTH Safety Products operates manufacturing and engineering facilities in Arnsberg / Germany and in Fort Lauderdale / Florida. Please visit www.schroth.com to learn more about SCHROTH Safety Products.

AERQ is a joint venture between LG Electronics and Lufthansa Technik. It was founded in June 2019 and is headquartered in Hamburg, Germany.

With its roots in consumer electronics and aviation it uses the extensive knowledge from both parent companies to develop digital solutions for aircraft cabins. AERQ takes the digital transformation of aircraft cabins to a new level by turning them into spaces for new ideas and business development. AERQ enables airlines to digitalize their aircraft cabins by providing AERENA, the new platform for digital engagement, empowerment and intelligence.

AIRCRAFT CABIN INNOVATION SUMMIT USA

13–15 September 2022 | Atlanta, Georgia, USA

WHAT OUR PAST DELEGATES EXPERIENCED

„From the very beginning to the end the summit was very illuminating and full of content. It was very good to see how the industry is recovering.“

Turkish Airlines

„Interesting topics and top speakers. Enough time for networking.“

FACC

„Great content, great participants, great location.“

Recaro Aircraft Seating

„RedCabin’s summits, panel discussions, and workshops stimulate new partnerships through collaboration and innovation while expanding industry education. Their model is positioned perfectly to keep the industry working together through these challenging times by pivoting to virtual collaboration, which resulted in an Aviation Hygiene Working Group. SEKISUI KYDEX is a proud partner of RedCabin and we are enthusiastically expanding our partnership into the Mass Transit Industry.“

SEKISUI KYDEX

„RedCabin is an amazing summit, where participants come from all over the world to collaborate & innovate in our industry!“

Delta Air Lines

„The RedCabin Innovation Summit uniquely provides an open, candid and collaborative forum where industry experts share their experience and ideas in a trusted and congenial environment for the benefit of the entire Cabin Interiors industry.“

DUNCAN AERO LTD

„Great conference and opportunity to meet with other airlines.“

Saudi Arabian Airlines

„At RedCabin we always meet fantastic new people, are exposed to a broad spectrum of experiences, projects and ideas, and have the chance to collaborate with each other in an open and inspiring way... and that is what our industry thrives on.“

Acumen Design Associates

AIRCRAFT CABIN INNOVATION SUMMIT USA

13–15 September 2022 | Atlanta, Georgia, USA

Summit Day 1 | Tuesday, 13 September 2022

8:00 am Registration

8:45 am Welcome note by RedCabin CEO Monica Wick and summit chairmen Anthony Harcup, Senior Director, TEAGUE and Cristian Sutter, CEO, Avensis

9:00 am Welcome Keynote

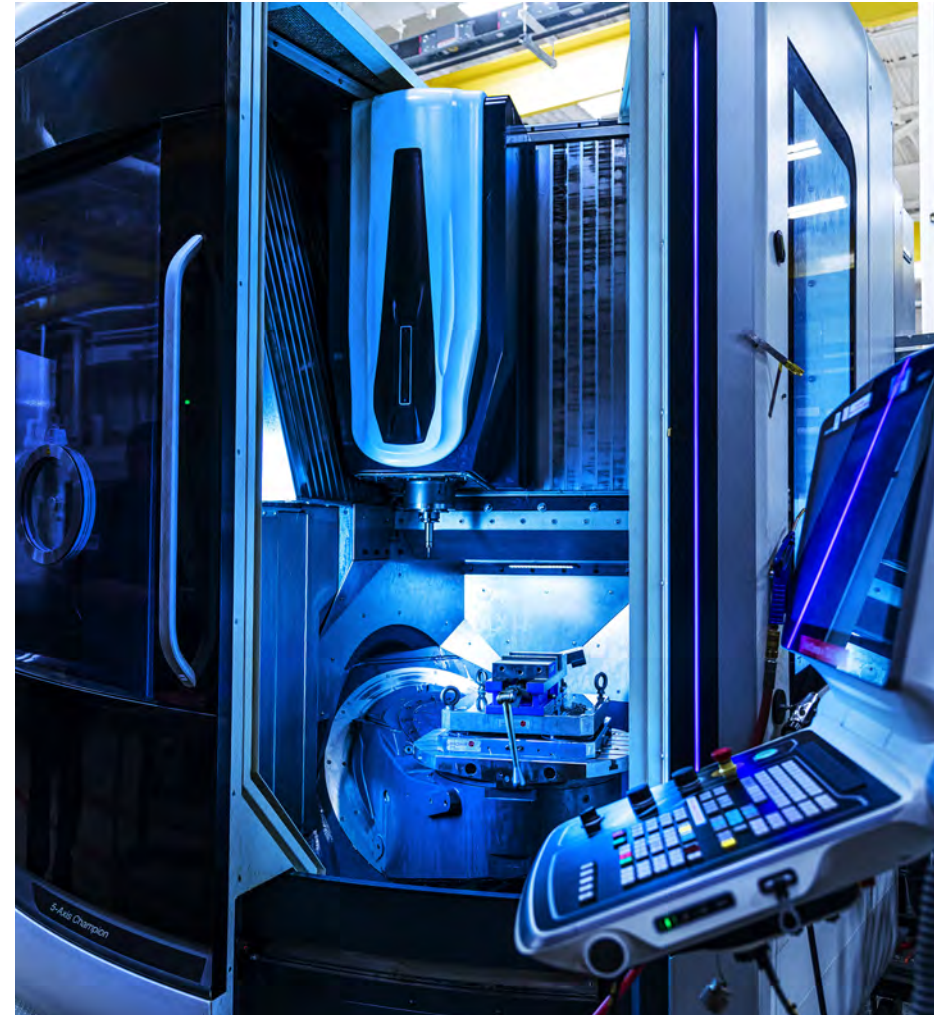

Mauricio Parise – VP-Brand Experience, *Delta Air Lines*

9:30 am Creating a holistic customer experience through design, Finnair & tangerine

- Setting a powerful vision for design and how to use it to inform development
- Going beyond basic needs and known pain points to exceed customer expectations
- Delivering a distinctly Nordic experience that resonates with guests from different cultures
- How close collaboration can achieve a truly holistic ground-to-air travel experience

Matt Round – Chief Creative Officer, *Tangerine*

David Kondo – Head of Customer Experience Product Design, *Finnair*

AIRCRAFT CABIN INNOVATION SUMMIT USA

13–15 September 2022 | Atlanta, Georgia, USA

Summit Day 1 | Tuesday, 13 September 2022

10:00 am SPEEDNETWORKING

Break the ice and get to know your industry peers in these fast-paced, one-to-one meetings. Greet each attendee in a series of brief exchanges and share your professional background. Make sure you bring a whole stack of business cards with you!

10:30 am NETWORKING COFFEE BREAK

11:00 am Exploring ways to achieve circularity for seating materials

- The perception of circularity in the industry
- Designing for good from the outset
- Case study: circularity for seat covers, the challenges and learnings

Annie Gibbons – Head of Sustainability, *ELeather*

Thea Junt – Sr. Sustainability Business Consultant, *Southwest Airlines*

PANEL DISCUSSION

11:30 am Net Zero and Wider Airline Sustainability

Pulling forward the future of aviation through the SkyTeam Sustainability Flight Challenge.

MODERATED BY: **Amelia Deluca** – VP-Sustainability, *Delta Air Lines*

Jesse Miers – *Delta Air Lines*

Winston D'Souza – *Sky Team*

12:15 am Reaching NetZero with 8,000 Suppliers

MODERATED BY: **Ben Smalley** – Aviation Market Business Manager, *Sekisui Kydex*

PANELLIST: **Ingo Wuggetzer** – Vice President Cabin Marketing, *Airbus*

Elina Kopola – Trend & CMF specialist, *TrendWorks*

Tom Schreuder – Director of Product Innovation, *Safran Cabin*

Shyaam Ramkumar – Lead Business Developer & Strategy North America, *Circularise*

1:00 pm NETWORKING LUNCH BREAK

2:30 pm INTERACTIVE WORKING GROUPS

The audience will be divided into three groups. Each group will attend all three interactive working groups.

AIRCRAFT CABIN INNOVATION SUMMIT USA

13–15 September 2022 | Atlanta, Georgia, USA

Summit Day 1 | Tuesday, 13 September 2022

WORKING GROUP – 1

2:30 pm **Designing for accessibility**

When talking about cabins with special needs, focus is often on wheel chair user. This WG will shift its focus to a wider audience, looking at people with reduced or impaired vision, hearing, range of motion and other special needs.

MODERATED BY: **Sebastian Tivig** – Senior Cabin Integration Manager & CVE – Upgrade Solutions, *Diehl Aviation*

John Morris – Founder, *WheelchairTravel.org*

Timo Gumbert – Director Commercial Aircraft, *FACC AG*

WORKING GROUP – 2

2:30 pm **Designing the Future of Cabin Interiors**

MODERATED BY: **Alexandra Douglas** – General Manager – Cabin Engineering & Programs, *Delta Air Lines*

WORKING GROUP – 3

2:30 pm **Airspace: Innovative Cabin Design**

- Airspace Brand: Bringing customer centricity to aircraft interior development
- Airspace Link: The launch of the first open and flexible ecosystem in the air

- Sustainability, digitalization and well-being: How the cabin will continue to evolve based on these 3 main innovation drivers
- Interactive Session: Using Design Thinking to frame future challenges and opportunities

MODERATED BY: **Ingo Wuggetzer** – Vice President Cabin Marketing, *Airbus*

Mariana Zarpelao – Aircraft Interior Marketing Manager, *Airbus*

4:30 pm NETWORKING COFFEE BREAK

5:00 pm CONTINUING WITH WORKING GROUP 1,2 & 3

6:00 pm RESULTS

Each moderator of the interactive working group is presenting the outcome of their Working Group.

6:15 pm CLOSING REMARKS BY SUMMIT CHAIRMEN

Anthony Harcup, Senior Director, TEAGUE and Cristian Sutter, CEO, Avensis

6:30 pm EVENING NETWORKING RECEPTION

Welcome note by **AIR-CLENZ**
SYSTEMS™

END OF SUMMIT DAY 1

AIRCRAFT CABIN INNOVATION SUMMIT USA

13–15 September 2022 | Atlanta, Georgia, USA

Summit Day 2 | Wednesday, 14 September 2022

8:30 am Registration

8:45 am Lightning talk 1: Buying and restarting a bankrupt airline in the middle of a pandemic in 46,718 easy steps

Tom Hallam – Boeing 757 Fleet Manager, *Northern Pacific Airways*

9:05 am Lightning talk 2: Switch by Style and Design – Making Premium Economy a class of its own

- Wider range of adjustments thanks to a new kinematic to land alert and relaxed
- Offering new postures like a pre-reclined TTL position, a lounge position and an active position
- Versatile seat design allowing solo as well as companion travel with modular geometries and features
- Ancillary revenues opportunity with solo+ configuration (one double seat for one pax with a deployable side cocktail table)
- A refreshing styling offering nothing but soft and welcoming surfaces for a compelling passenger experience

Laurent Stritter – Design Director, *Style & Design Group*

9:30 am Lightning talk 3: IFE connectivity

Rick Salantri – President, *Delta Flight Products*

9:45 am Innovation in AirShield System Technology by Pexco Aerospace

AirShield is a patent-pending cabin-airflow device that is designed to amplify the benefits of the HEPA filtration system – optimizing the flow of the freshly purified air around the passenger. Reshapes freshly purified air from the HEPA filter into a protective curtain around each passenger. Airshield supports the confident return to air travel for passengers and crew around the world.

Jon E. Page – President, *Pexco Aerospace*

10:15 am NETWORKING COFFEE BREAK

PANEL DISCUSSION

10:45 am Implementing culture in cabin design and innovation

MODERATED BY: **Stephanie Faulk** – Director of Sales & Marketing, *Adient Aerospace*

PANELLIST: **Katsunori Maki** – Director Cabin Products and Services CX Management, *All Nippon Airways (ANA)/Air Japan (AJX)*

Jonathan Seguin – Head of Research and Innovation, *Stelia Aerospace*

Kirsty Dias – Managing Director, *PriestmanGoode*

AIRCRAFT CABIN INNOVATION SUMMIT USA

13–15 September 2022 | Atlanta, Georgia, USA

Summit Day 2 | Wednesday, 14 September 2022

Trystan Parry – VP sales and Marketing – Adient Aerospace

Victor Carlioz – CEO, *ACLA Studio*

11:30 am Designing for LCCs

MODERATED BY: **Neil Cairns** – Chief Executive, *Acro Aircraft Seating*

PANELLIST: **Larry Mabry** – Strategic Sourcing Manager TechOps Supply Chain Management, *Southwest Airlines*

Pierre-Antoine SENES – Cabin Marketing Director Customer Affairs, *Airbus*

Nathan Kwok – Executive Vice President Sales & Marketing, *Safran Cabin*

12:15 pm NETWORKING LUNCH BREAK

1:45 pm INTERACTIVE WORKING GROUPS

*The audience will be divided into three groups.
Each group will attend all three interactive working groups.*

WORKING GROUP – 1

1:45 pm Air travel can be uncomfortable – so how can we make it better?

How can conventions in air travel be challenged?

For example, is seat pitch a true function of comfort? How does cushioning, living space and recline impact the passenger's perception of comfort?

Glenn and Peter will pose these and other questions, and run working groups, in the hope of 'pointing fingers' at what impacts air travel, and to shine a light on the reasons involved.

MODERATED BY: **Glenn Johnson** – Tech. Fellow, *Collins Aerospace*

Peter Tennent – Owner/Director, *Factorydesign*

Matthew Nicholls – Sales Director, *Tapis Corporation*

WORKING GROUP – 2

1:45 pm Our Tools, No Rules: Imagining Tomorrow's Passenger Experience

In this working group, you will team with airlines, aircraft manufacturers, suppliers, and designers to have a collaborative hands-on demonstration that explores innovative concepts to enhance the passenger experience. A tool kit to fabricate a mockup will be provided by NORDAM where teams create their own cabin of the future. This working group encouraged you to think outside the box, plan to bring your inner creative industrial design thinking. An award will be provided to the winning team.

MODERATED BY: **Raegen Siegfried** – VP Hush Works, *Nordam*

Carlos Flores – VP Mfg Sales, *Nordam*

CO-HOSTED BY: **Anthony Harcup** – Senior Director, *TEAGUE*

AIRCRAFT CABIN INNOVATION SUMMIT USA

13–15 September 2022 | Atlanta, Georgia, USA

Summit Day 2 | Wednesday, 14 September 2022

WORKING GROUP – 3

1:45 pm **Sustainability path forward**

Join Boeing to discuss our sustainability path forward, focusing on the important aspect of collaborating around the world, across our industry and within our enterprise. We will share our carbon-fiber recycling learning journey, as part of our approach to environmentally responsible operations. During our working session, we'll highlight how we organize around sustainability, taking careful steps to ensure meaningful impact. The session will include brainstorming various elements of sustainability, including: environmental; safety and well-being; and equity diversity and inclusion.

MODERATED BY: **Kit Cheung** – Engineering Manager – Feature Management, Customer Engineering, *Boeing*

Erin Gutierrez – Environmental Sustainability Manager – Product Development, *Boeing*

Marni Klein – Feature Manager – Customer Engineering, *Boeing*

3:45 pm NETWORKING COFFEE BREAK

4:15 pm CONTINUING WITH WORKING GROUP 1,2 & 3

5:15 pm RESULTS

Each moderator of the interactive working group is presenting the outcome of their Working Group.

5:45 pm CLOSING REMARKS BY SUMMIT CHAIRMEN

Anthony Harcup, Senior Director, TEAGUE and Cristian Sutter, CEO, Avensis

6:30 pm EVENING RECEPTION BY FORMATION DESIGN GROUP

Formation Design Group will be hosting the evening reception at their studio in Midtown Atlanta. You'll be able to tour their studio and prototyping lab and see many cabin innovations, including seating mock-ups and a virtual reality cabin demonstrator. They will also introduce a new boarding concept designed to significantly improve single aisle turnaround times as well as the overall passenger experience – all while enjoying food, drink, and conversations.

END OF SUMMIT DAY 2

AIRCRAFT CABIN INNOVATION SUMMIT USA

13–15 September 2022 | Atlanta, Georgia, USA

Summit Day 3 | Thursday, 15 September 2022

DELTA DAY

The final day of the summit, known as “**Delta Day**”, will give attendees an exclusive tour of the iconic **Delta Flight Museum**, followed by a rare behind-the-scenes look at Delta TechOps – the airline’s Maintenance, Repair and Overhaul (MRO) facility.

There will also be a networking breakfast event and several interactive learning sessions taking place throughout the day, while also exploring the latest innovation in Delta Air Lines’ brand, customer experience, flight products and material services.

8:00 am Bus Pick-Up from Hyatt Place Atlanta Downtown

8:30 am Delta Day Begins at the Delta Flight Museum

8:30 am Continental Breakfast & Networking

9:15 am Intro/Welcome by Alice Belcher – Director, Predictive Technology Engineering, *Delta Air Lines*

9:30 am Delta Breakout Sessions

- **Breakout 1:** Delta Flight Museum Tour
- **Breakout 2:** Delta Brand & Customer Experience Learning Session
- **Breakout 3:** Delta TechOps, Flight Products & Material Services Learning Session

12:00 pm END OF DELTA DAY

AIRCRAFT CABIN INNOVATION SUMMIT USA

13–15 September 2022 | Atlanta, Georgia, USA
